

## Tree Work A429 - Further information

## Road Closure Map

**What: Temporary Traffic Order to close the road for essential Ash Dieback tree work.**

**Where:** A429 - Cirencester to Northleach

**When: 20-31 July 2026 inclusive (excluding weekends) from 09.30 to 15.30 daily.**

The rolling hard closure will be in operation starting at Cirencester. We close junction to junction so the first area of work will be from Cirencester to Welsh Way. Our team will work closely with residents living within hard closure areas. We work within strict Health & Safety guidelines so we will give access as required but at all times ensuring that machinery is switched off to give safe passage through the live site. Once we have completed here we will move on to the area between Welsh Way and 400913 turning to Calmsden. It is unlikely that we will progress further than here within the two weeks of our permit, although should we, the next area would be from this Calmsden junction to The Stump Pub at Fosse Cross. The A429 will remain a 'NO Through Road' throughout the duration of the closure, however, areas where work is not being undertaken will remain open to road users.
